

### **REMARKS**

Claims 7 and 11 have been amended. Claims 13-16 have been added. Claims 1 - 7 have been previously canceled. Thus, claims 7-16 are pending in the application. The Examiner rejected claims 7-12 in the above mentioned Office Action.

### **Claim Rejections Under 35 U.S.C. §102**

Claims 7, 8, and 11 have been rejected under 35 U.S.C. §102(b) as being anticipated by Blumör (US 5,757,147 hereinafter, Blumör). Applicant respectfully disagrees. However, to further prosecution, Applicant amended the independent claims. Independent claims 7 and 11 include limitations neither disclosed nor suggested by Blumör.

To more clearly distinguish the present invention from the prior art, the independent claims have been amended to clarify the method of determining an unwanted state. Such a state is a state in which the quality of the power from said electrical power supply system is outside of required limits. In other words, this state does not focus on a complete failure of the power system but rather on the quality of the power. Additional claims 13-16 include the additional monitoring of a power failure. These features are described on page 6, lines 2-6 of the originally submitted specification.

The dependent claims include all the limitations of the respective independent claims. Thus, these claims are at least patentable to the extent of the independent claims to which they refer.

### **SUMMARY**

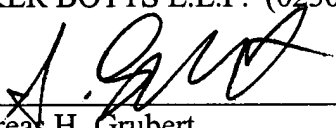

In light of the above remarks, reconsideration and withdrawal of the outstanding rejection is respectfully requested. Early notice of the allowance is earnestly solicited. Should the Examiner have any questions, comments or suggestions in furtherance of the prosecution of this application, the Examiner is invited to contact the agent of record by telephone or facsimile. If there are any fees due with the filing of this Response, including any fees for an extension of time, Applicants respectfully Petition the Commissioner for such an extension and direct that any

and all fees be charged to Baker Botts L.L.P., Deposit Account No. 02-0383, (*formerly Baker & Botts, L.L.P.,*) Order Number 071308.0173.

Respectfully submitted,
